●

This is a year of celebrations— The Redford Union High Class of "53" have reached a milestone in their lives. Graduation is a real accomplishment and something to celebrate. The Lincoln Mercury General Parts Depot also has something to celebrate as it marks the 50th Anniversary of the Ford Motor Company. It is only fitting that the many old grads now working at the General Parts Depot join with the entire Lincoln-Mercury Organization in wishing the Class of "53" the best in success for the coming years.

what next?

It's a pretty important decision, young lady — choosing the right job. You'll want to work in pleasant surroundings — in light and airy offices with modern equipment.

And now that you're out of school, you'll expect to meet new friends where you work — young people you'll like and with whom you can enjoy your leisure time. (And how about a vacation with pay?)

Then there's the matter of a paycheck—it'll be nice to count on a steady income, a salary that's good from the start and keeps getting better with regular increases.

There's a job like this waiting for *you* at the telephone company!

You might want to be a telephone operator or a teller, a cashier or a clerk — those are just some of the many interesting jobs Michigan Bell has for bright young high school graduates like yourself. And there's a chance to advance in all of them.

You don't need experience to get a telephone job, and you'll earn a good salary, even while you're learning.

What next? Why not visit Michigan Bell's Employment Office? We'll be looking for you!

WHEN you ask those who graduated twenty, ten, or even five years ago, they will inform you, we are sure, that a bank account and financial reserves are, for the great majority, very helpful in accomplishing great things.

You will never be sorry you saved, and the savings habit is much more important than the money itself. Open your Savings Account at any of our 44 Neighborhood Offices—and start a banking relationship which will become one of your most important assets in the years to come.
